

ZHENXUAN MA

No.5 Wulumiqi Road, Jingan District, Shanghai, China
+86 15221921716/zxma13@fudan.edu.cn

EDUCATION

Fudan University	Shanghai, China
Master of Internal Medicine (Infectious Disease) Supervisor: Prof. Jiming Zhang	Sep 2018 – Jul 2021
Fudan University	Shanghai, China
Bachelor of Clinical Medicine	Sep 2013 – Jul 2018
London School of Economics and Political Science	London, United Kingdom
English for Academic Purposes (EAP) Pre-session Programme, LN909	Jul 2015 – Aug 2015

WORK EXPERIENCE

Huashan Hospital affiliated to Fudan University	Shanghai, China
Geriatric Specialist	Jul 2021 – Present
Engaged in specialized geriatric training, demonstrating expertise in the holistic care of elderly patients.	
Resident	Jul 2018 – Jul 2021
Completed a rigorous standardized training program for internal medicine residents, gaining proficiency in comprehensive patient management.	
Internship	Jul 2017 – Jul 2018
Conducted internships within various specialty departments, cultivating a diverse skill set and valuable clinical experience.

Journal of Virology. PMID: 27795416
- Rational improvement of gp41-targeting HIV-1 fusion inhibitors: an innovatively designed Ile-Asp-Leu tail with alternative conformations. [Sep,2016]

RESEARCH EXPERIENCE

- **Shibo Jiang's Lab, Fudan University** *Shanghai, China*
Research intern, supervised by Prof. Shibo Jiang Aug 2015 – May 2018
Conducted in-depth research focusing on the mechanism and refinement of peptide-based fusion inhibitors, with the aim of advancing potential antiviral treatments.
Project: *Creating an artificial tail-anchor as a novel strategy to enhance the potency of peptide-based HIV fusion inhibitors*
 - Pioneered the identification of an artificial structural component that amplifies the anti-HIV effect of fusion inhibitors.
 - Successfully secured and completed the National Basic Science Personnel Training Fund (Project ID: J1210041) Capacity Improvement Project
 - Mastered foundational techniques in molecular biology and immunology through rigorous laboratory work.
- **Jiming Zhang's Lab, Fudan University** *Shanghai, China*
Master student, supervised by Prof. Jiming Zhang Aug 2017 – Present
Engaged in advanced studies under the mentorship of Prof. Jiming Zhang, focusing on the clinical treatment and fundamental research of chronic hepatitis B.
Project: *Thyroid dysfunction incidence and risk factors in Chinese chronic hepatitis B patients treated with pegylated interferon alpha: a long-term follow-up study*
 - Implemented a retrospective observational approach to assess clinical outcomes, leading to the establishment of a predictive model for thyroid dysfunction incidence in pre-treatment patients.
 - Attained proficiency in clinical research design, follow-up study, and advanced statistical analysis methodologies, augmenting expertise in evidence-based medical research.
- **National Clinical Research Center for Aging and Medicine, Fudan University** *Shanghai, China*
Research assistant Jul 2021 – Present
Contribute to pioneering research at the National Clinical Research Center for Aging and Medicine, with a primary focus on understanding the clinical characteristics of prevalent diseases in elderly populations and optimizing their healthcare.
Project: *A pivotal study evaluating the efficacy and safety of Paxlovid in super-elderly patients infected with the Omicron variant.*
 - Established and managed a clinical cohort study comprising elderly individuals, demonstrating expertise in designing and executing comprehensive research protocols.
 - Specialized in the treatment of severe COVID-19 cases in elderly patients, while prioritizing the management of chronic comorbidities, exemplifying proficiency in geriatric healthcare.

SELECTED AWARDS AND HONORS

- Academic Excellent Scholarship, Fudan University 2014/2017/2018
- First prize for excellent paper, Chinese Society of Hepatology annual conference Sep 2020

JOURNAL REVIEWERS

- International Journal of Peptide Research and Therapeutics Nov 2022

COURSEWORK AND SKILLS

- **Curriculums:** Advanced Mathematics, Medical Immunology, Medical Microbiology, Internal Medicine, Surgery, Infectious Diseases, Preventive Medicine, Biostatistics, Programming
- **Experiment:** Cell culture, ELISA, PCR, Western blot, Pseudovirus, Transfection, Flow cytometry
- **Statistics:** Propensity-score matching, Clinical trials, Survival analysis, Logistic regression analysis
- **Hobbies:** Rubik's cube, social sciences, swimming, jogging, badminton
- **Software:** R programming, SPSS, Microsoft Office, Photoshop

ADDITIONAL ACTIVITIES

- Volunteer work in Shanghai Science and Technology Museum May 2014
- Bilingual volunteer work in CaiYuanpei's former residence Jun 2015
- Compilation work of Shanghai Medical College academician alumnus biography Sep 2017
- Science popularization public welfare activity "Face to Face with Scientists" Nov 2020
